Display Screen Equipment (DSE) Risk Assessor Training

Health and Safety Courses for Staff and Managers

This is an Institute of Ergonomics & Human Factors recognised course

Who should attend	Supervisors, Office Managers, Health and Safety co-ordinators, interested staff.
Why you should attend	Employers are required to carry out risk assessments for individual employees who use a computer for the majority of their work. This can be very time consuming. We will show you ways to comply with the law, be proactive in identifying situations that may cause harm and enable staff to be in control of their workstations.
What you will learn	• How to identify where harm may be caused and how to remove or reduce that harm; • How to carry out an assessment of computer workstations to comply with current legislation; • How to advise staff.
Expected outcomes	Carry out straightforward in-house computer workstation risk assessments, keep records, monitor and review.
Course content	• Anatomy and physiology. • Penalties imposed and how to avoid them. • An explanation of the standards relating to the use and siting of DSE. • How to carry out a DSE assessment using the forms provided or company's own forms. • Practical assessments of workstations. • How to advise staff on the reduction of health related problems associated with the use of DSE. • Special considerations: physical disability; pregnancy; wheelchair users. • Implications of home working, travelling and the use of laptops.
Assessment	Assignment and self-evaluation
Venue	Peterborough
Dates	2012: 6th March, 18th July, 19th October
Cost	£199 per person (plus VAT)
What's included	Certificate, comprehensive course manual, telephone and e-mail support for 12 months
Course duration	1 day
Recommended pre-requisites	None
Recommended follow-up courses	CIEH Level 3 Training Skills and Practice
