

# Managing Site Safety and CHAS/ Constructionline Accreditation Training

***Discover what you need to do to successfully complete or re-apply for CHAS or Constructionline accreditation.***

***Not just a course but all the supporting documentation you will need on a CD ROM***

## Who should attend

Any manager, supervisor or owner of companies working in the construction industry or construction-related service industry (plumbers, electricians, carpenters, shop-fitters, roofers, maintenance contractors, ventilation engineers, ground workers, painters and decorators, telecoms contractors, plant fitters etc) and specifically the person responsible for health and safety and/or completion of CHAS/Constructionline applications.

## Why you should attend

Not only will you learn about managing site safety, you will also be able to understand what the CHAS/ Constructionline assessor is looking for as evidence of safety competence. You will receive a certificate stating that you have successfully completed a 'Managing Safety in Construction' course.

## What you will learn

- Understand the requirements of the Construction (Design and Management) Regulations (CDM Regs)
- Understand the requirements of construction-related regulation such as asbestos, work at height, confined spaces, permits to work etc
- Understand the steps to gaining a recognised accreditation such as CHAS, Constructionline etc
- Understand the CSCS card system and how your workforce can obtain the relevant card

## What you will get

A comprehensive pack with templates and examples of:

- A Health and Safety Policy
- Risk assessments and method statement
- Induction training checklist and sign off sheet
- Tool-box talks and sign off sheets
- Site inspection forms
- Statutory Registers for plant and equipment

## Assessment

Assignment and self-evaluation
